Program

- 09:30 - 10:00 AM Welcome of participants
- 10:00 - 10:30 AM **Clusters of interferon response genes are regulated by promoters with distal enhancer function** - Salvatore SPICUGLIA, TAGC, UMR Inserm/Aix-Marseille University, Marseille, France
- 10:30 - 11:00 AM **Control of inflammatory gene expression** - Simona SACCANI, Institute for Research on Cancer and Aging, UMR Université de Nice/CNRS/Inserm, Nice, France
- 11:00 - 11:30 AM Coffee break
- 11:30 - 12:00 PM **Epigenetic control of CD4 T cell fate** - Olivier JOFFRE, Toulouse-Purpan Pathophysiology Center (CPTP), UMR Inserm/CNRS/Université Toulouse III, Toulouse, France
- 12:00 - 12:30 PM **Role of heterochromatin in hematopoietic stem cell aging** - Michèle GOODHARDT, Institut universitaire d'hématologie, UMR Inserm/University Paris Diderot/EPHE, Paris, France
- 12:30 - 01:00 PM **"On top of": the AT-rich genome of *P. falciparum*** - Richárd BÁRTFAI, Radboud University, Nijmegen, The Netherlands
- 01:00 - 02:30 PM Lunch time (not supported by the conference)
- 02:30 - 03:00 PM **Identification of histone and non-histone proteins targeted by a *Legionella* effector during infection** - Carmen BUCHRIESER, Pasteur Institute, Paris, France
- 03:00 - 03:30 PM **Polycomb recruitment during Gammaherpesvirus latency establishment** - Adam GRUNDHOFF, Heinrich Pette Institute, Hamburg, Germany
- 03:30 - 04:00 PM **Revealing host epigenomic mechanisms through bacterial infection** - Mélanie HAMON, Pasteur Institute, Paris, France
- 04:00 - 04:30 PM **Concluding remarks and discussion** - Jonathan Weitzman, UMR CNRS/University Paris Diderot, Paris, France
- 04:30 - 05:30 PM Cocktail - End of the conference
